Education

The University of Western Australia	W.A., Australia
Master of Professional (Electrical and Electronic) Engineering	*Jan. 2017 – Jul. 2019*
Bachelor of Philosophy (Hons.) in Engineering Science	*Jan. 2013 – Nov. 2016*
Fudan University	Shanghai, China
International Summer Session, Mandarin Chinese	*Jun. 2015*

Awards & Certifications

PwC Australia	Recognised Consulting Team Member	2018
The University of Western Australia	UWA Bachelor of Philosophy Hons. Award	2013
	UWA Excellence Award (UWA)	2013
Department of Education / SCSA WA	Best and Brightest Award	2012
	Certificate of Commendation	2012
	DUX (Top Student) Award Overall & Mathematics (WSHS)	2012
Institution of Engineers, Australia	Recognition of Outstanding Achievement	2012

Technical Skills

Expertise	Software Engineering, Data Modelling, Data Analysis, Machine Learning, Natural Language Processing, Backend Web Development
Primary Languages	Python3, Java 7/8+, C, C#, GoLang
Web Development	Python Flask/Django, Bootstrap4, Node.js, React.js, GraphQL, SpringMVC
UI Development	PyQt4/5, Python Tkinter
Databases	T-SQL & SQL-Server, Oracle, SQLite
Data Analysis & Visualisation	Mathematica, MATLAB, TensorFlow, PowerBI, Spotfire, GNU-R, Alteryx, VBA
Graphics	Unity, Blender, Inkspace, GIMP
CAD / Modelling	CADSoft Eagle, OrCAD schematic capture, Cadence, PSCAD
Other	LaTeX, git, gradle, bash, GCP, docker, HTML/CSS/JS, Lua, UML Modelling

Professional Experience

WooliesX N.S.W., Australia
Machine Learning Engineer *Nov. 2021 - Current*
- Productionize machine learning models for use in Woolworths' Group businesses for customer loyalty and retention programs.
- Develop data pipelines and streams for ingestion, processing, and analysis of large-scale customer data.

ANZ Australia Vic., Australia
Software Engineer *Mar. 2020 – Nov. 2021*

- Backend engineer for the development of internal banker tools.
- Developed and maintained several Java Spring microservices and their integrations.
- Oversaw solution design for key components in the backend platform that enables several banker tools.

PwC Australia W.A., Australia
Senior Consultant *Oct. 2017 – Mar. 2020*

- Led technical development of an integrated planning platform for clients from various industries. Provided supply chain production optimisation for mining (iron ore and nickel) and shipping.
- Responsible for database design, administration, integration of services, data management and various data analysis exercises to provide insights and improvements to supply chain planning.

BHP Billiton Iron Ore W.A., Australia
Research Intern *Jan. 2017 – Dec. 2018*

- Conducted academic Final Year Research Project with an industry partner in the resource sector.
- Investigated improvements in supply chain scheduling at the tactical level with a Python data analysis platform, interfacing with C# .NET optimisation algorithm.

CSIRO N.S.W., Australia
Vacation Researcher *Nov. 2016 – Feb. 2017*

- Investigated predictors of energy consumption behaviours in Australia using statistical analysis such as OLS, Step-wise and LASSO.
- Developed Python Tkinter GUI for data visualization of energy reports.

International Centre for Radio Astronomy Research (ICRAR) W.A., Australia
Research Assistant *Jan. 2013 – Sep. 2015*

- Conducted automated literature searches using Python scripts to parse and scrap data.
- Investigated supernovae properties using SAOImage DS9 FITS image processing software.
- Assisted the research of fellow researchers to ultimately produce a research paper for publication.

Research

The radial distribution of supernovae compared to star formation tracers.
F.M. Audcent-Ross, G.R. Meurer, J.R. Audcent, S.D. Ryder, O.I. Wong, J. Phan, A. Williamson, & J.H. Kim
In: Monthly Notices of the Royal Astronomical Society. Feb. 2020, Vol 492(1)
https://doi.org/10.1093/mnras/stz3282,

Feature extraction analysis for automatic power quality disturbance classification
J. Phan, The University of Western Australia
for: Dissertation for Bachelor of Engineering Science (Hons.). Oct. 2016
